## ABOUT ME

I'm a web developer. I spend my whole day, practically every day, experimenting with programming languages and designing tools; I build websites and graphics that delight and inform. I can create UI/UX Design. I do it well.

As a graphic designer, I assemble together images, typography, or motion graphics to create a piece of design.

## PROJECTS

- 01 MY PORTFOLIO**  
This is my portfolio
  - [www.thisismemukul.ml](http://www.thisismemukul.ml)
